

ENRICHING OUR COMMUNITY, EXPANDING OUR WORLD.

Randy Judkins was the featured presenter at our annual Staff Appreciation event during a time of particularly great change and upheaval. His delightful and hilarious way of helping us laugh at ourselves, and see the lightness and opportunity that these events could bring us was very energizing. Being reminded of important learnings using hilarity, and shared laughter goes a long way toward helping to gain a healthy perspective. His sometimes subtle humor really made us stop and reflect on our own personal situations. Yet on the opposite side of the humor spectrum, more than one person was overheard to say “I laughed so hard, my face hurt.” His presentation was received with accolades which we heard for days afterward.
